San Diego 9, California

TERMS OF SALE

Orders filled in order received. Subject to loss of stock from causes beyond our control.

Claim for damages in transit must be made immediately with the transportation company by you.

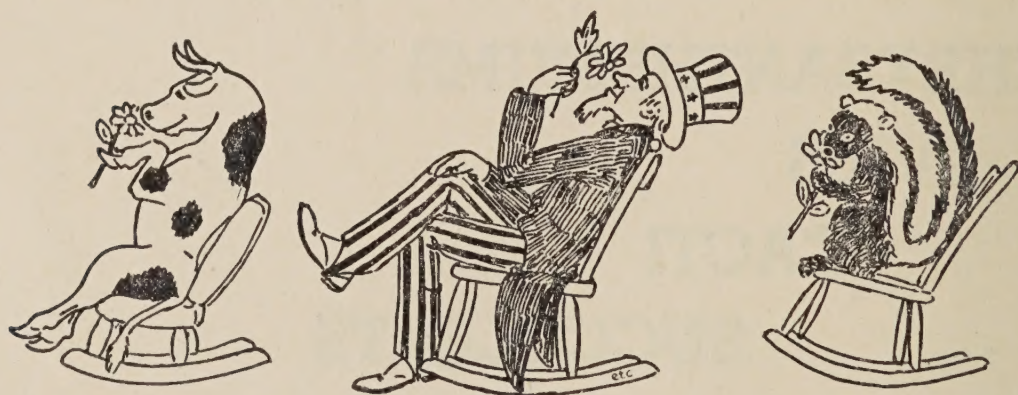

All shipments made by Railway Express unless otherwise instructed.

Terms: Cash. No Discounts.

All prices F.O.B. San Diego, Calif.

We shall do our best to adjust any losses caused by errors on our part but under no circumstances shall we be responsible for any sum greater than the amount paid for the stock in question.

Soledad Gardens is owned and operated by Mr. and Mrs. Lewis A. Walmsley, wholesale growers of florist's specialties at this location since 1931. This is our first catalog since 1940 when labor shortage curtailed volume in our business. We have been able to maintain our propagating stock of the better varieties of Cacti, Succulents, and Ivies. For the first time, this year, we are offering Chrysanthemums.

Like Ferdinand and Stinkie, Uncle Sam still wants to spend the rest of his life reclining on his spine smelling a flower. With other flower growers, we approve of flower smelling. But we can't forget that the flowers are grown in prewar greenhouses, heated by prewar boilers that burn coal that is not being mined. Or in fields plowed with a prewar plow that isn't improving with age. We don't like to contemplate having to say, Move over, Uncle, move over!—For who wants to recline without a flower to smell?

CHRYSANTHEMUMS

Cuttings are taken from one-year field-grown stock plants, rooted in open-air benches, given temporary shade only while rooting. This insures vigorous, well-rooted cuttings, free from the usual insects and diseases troublesome to greenhouse grown stock. Our fields are in a nearly frost-free area and we can start shipping rooted cuttings early in February.

We will propagate heavily on early varieties for February and March shipment; mid-season varieties for March, April, and May shipment; late varieties for May, June, and July shipment. However, we can ship all varieties on advance orders as desired between February 1st and July 31st.

We will not substitute varieties without written permission.

Transplanted, soil established plants, suitable for immediate benching, field planting, or potting, can usually be furnished at double the price of rooted cuttings.

CACTI

Cacti Seed

We now grow our own seed of most of the best commercial varieties of Mammillarias, Astrophytums, Notocactus, Monstrose forms of Cereus peruvianus hybds., and some other varieties. We have improved our strains by carefully selecting and growing on our seed-bearing stock plants over the last ten years.

We offer our surplus of seed as follows:

\$2.00 per 1000 Seed	\$1.50 per 1000 Seed
Astrophytum myriostigma	Mammillaria microhelia
Mammillaria Hahniana	" caput medusae
(Old Woman)	" elegans
	" Parkinsonii
\$1.50 per 1000 Seed	" vaupeli
Mammillaria Pfeifferi	" elongata
Mammillaria bocasana	

Mammillaria seed, a mixture of the above and other choice varieties, \$1.50 per 1000 seed.

CACTI ASSORTMENTS

We can usually supply a limited number of varieties of Cacti in the smaller sizes in assortment of our selection at \$3.00 per 100.

Our assortments of Cacti at \$5.00 and \$10.00 per 100 contain mostly Mammillarias and other top quality varieties available in these price ranges.

Soledad Gardens
